## SCORING THE QUESTIONNAIRE

- Be sure each item has been answered. If an item cannot be answered, refer to the ratio scoring procedure in *The ASQ User's Guide*.
- Score each item on the questionnaire by writing the appropriate number on the line by each item answer.  
 YES = 10      SOMETIMES = 5      NOT YET = 0
- Add up the item scores for each area, and record these totals in the space provided for area totals.
- Indicate the child's total score for each area by filling in the appropriate circle on the chart below. For example, if the total score for the Communication area was 50, fill in the circle below 50 in the first row.

Examine the blackened circles for each area in the chart above.

- If the child's total score falls within the  area, the child appears to be doing well in this area at this time.
- If the child's total score falls within the  area, talk with a professional. The child may need further evaluation.
